

## The Cadier Bar Introduces “Trolley Tuesdays” – An Interactive Cocktail Experience

The Cadier Bar at Grand Hôtel Stockholm has introduced a new interactive concept, *Trolley Tuesdays*. Every Tuesday, guests are invited to order cocktails from a specially designed trolley, where drinks are prepared tableside and served directly from the cart.

The menu features a curated selection of exclusive cocktails not available on the regular list, with two carefully selected serves to choose from. The concept is a natural extension of this year’s cocktail menu, *Interactions* – a tribute to the meetings, exchanges and conversations that define the atmosphere of Cadier Bar.

The cocktail trolley has been developed in collaboration with Behind Bars. Crafted in oak and designed as a piece of furniture in its own right, it moves beyond the traditional functional bar cart to become an integral part of the guest experience.

The trolley menu will evolve over time. Currently, the following cocktails are served:

### **Margarita on the Rocks**

Volcan Blanco, orange liqueur, lime juice, agave

Choice of:

Original / Spicy / Clementine

### **Old Fashioned**

Glenmorangie 12, sugar, bitters

Choice of:

Original / Burnt Honey / Coconut & Champagne
